brought in a verdict of \$30,000 damages for the plaintiff. Before the court adjourned last night the motion of the defense to set aside the verdict as excessive was argued. This morning the judge refused to set aside the verdict, citing the authorities and giving reasons why such a verdict was justified. The case will not be carried up to the court of appeals. Owing to the interesting facts, the number of witnesses, the expert testimony and the novel experience of the United States court the case has excited unusual interest and comment, which was added to by the lively sparring of the counsel. The judge partially put a stop to this, however, by finding Captain F. S. Blair and General James A. Walker \$25 apiece.

Dr. John Graham was making chemical experiments in the court-house here yesterday to test the impurity of the atmosphere with unfavorable results.
